• THE WORLD'S MOST
ADVANCED
FULLY ADJUSTABLE
THUMB THROTTLE

Although ATV technology has changed significantly since its arrival over half a century ago, one thing has remained the same: the ATV thumb throttle.

Urmosi decided to create a game changing tool that allows you to finally enjoy your ride without fatigue, pain, and tiredness.

Featuring CNC machined aluminum, an ergonomic design, full adjustable height, and thumb depth settings, the Urmosi ATV thumb throttle will allow you to have your best ride ever.

WHAT MAKES URMOSI DIFFERENT?

You can feel the difference when you use an Urmosi. Here's why:

RUGGED BUILD

CNC machined aluminum

THUMB DEPTH SETTINGS

Allows you to adjust 6 different angles based on your riding skill, body type, and seating position

EXTREME DURABILITY

The DiamonDyze™ coating provides extreme wear resistance and corrosion protection.

EASY TO OPERATE

Users experience less hand and thumb fatigue, according to Dirt Wheels Magazine

UNIVERSAL FIT

Fits most ATVs with 2 connector types

EASY TO INSTALL

It takes less than 10 minutes to install on most ATVs

ADJUSTABLE HEIGHT

Move it lower for riders with bigger hands, move it higher for riders with smaller hands

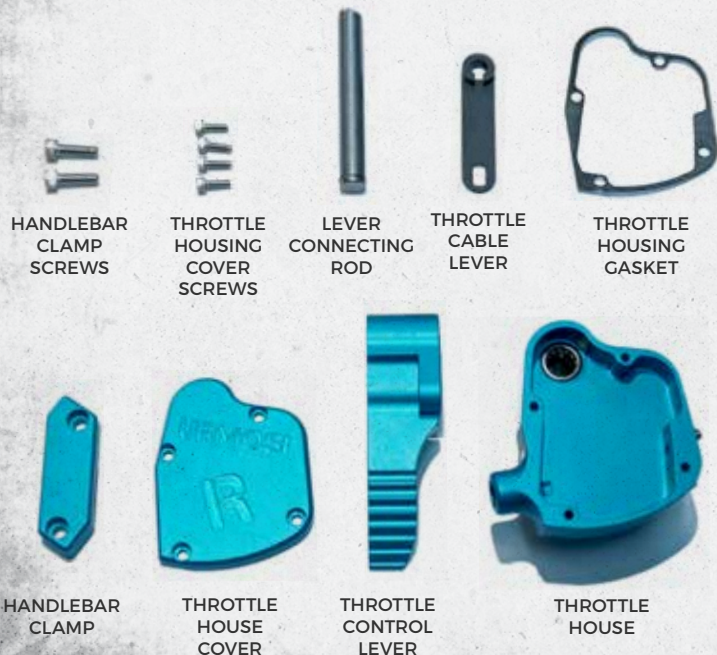

ERGONOMIC DESIGN

A more natural and comfortable thumb position, reducing hand pain and increasing endurance
